Objective

Passionate computer engineering student skilled in programming, software development, and embedded systems, seeking an internship to apply my coding and problem-solving skills in cutting-edge technology projects.

Education

Sri Vasavi Engineering College, Tadepalligudem

Bachelor of Science in Computer Science Engineering
CGPA: 7.7

Smt. B. Seetha Polytechnic College, Bhimavaram

Diploma in Computer Science Engineering
CGPA: 8.6

Technical Skills

- **Programming Languages:** C, C++, Java, Python
 - **Web Development:** HTML, CSS
-

Projects

Mini Alexa

Developer | January 2023 – April 2023

- Designed and implemented a voice-activated virtual assistant using Python, simulating core Alexa functionalities.
- Integrated speech recognition and text-to-speech libraries for natural language processing.
- Developed custom modules for weather updates, reminders, and web searches, enhancing user interaction by 30%.

Custom Chatbot Using LLM

Developer | May 2024 – August 2024

- Created a custom chatbot using a fine-tuned large language model (LLM) for enhanced conversational capabilities.
 - Utilized Hugging Face Transformers for model training, achieving a 20% increase in response accuracy and relevance.
